

## Paper Love Affair

Jimmy Dean

Your love for me was just a paper love affair  
So we stood side by side and you whispered I do  
You made those vows and our names are written there  
But darling how you lied when you said I love you  
You made those vows again and again you signed your name  
My paper love affair is just a license in a frame  
I'll keep it there even though we're far apart  
My paper love affair will live forever in my heart  
You made those vows and our names are written there  
But darling how you lied when you said I love you  
You made those vows again and again you signed your name  
My paper love affair is just a license in a frame  
I'll keep it there even though we're far apart  
My paper love affair will live forever in my heart
