

# Rock Bottom

Jimmy Needham

I've never seen anything like Your fountain  
Comin' down from the tip of the mountaintop  
And it goes, never stops, only overflows  
I've never met anyone with the power  
To make a desert bloom like a flower  
Up and it goes, where it stops, only Heaven knows  
Never known anyone as wonderful as You are  
Over and over  
You fill my heart with wonder  
You take me by surprise  
I can't believe my eyes  
Wider and deeper  
Just when I think I've seen You  
Like a stone thrown into the ocean water  
I could search Your depths  
And never hit rock bottom  
How can the God of the galaxies  
Have a care for the little things  
Every tear that I cry, every time that I smile  
Deep in me You've created a fire  
Like a friend You keep taking me higher  
Up and it grows, where it stops, only Heaven knows  
Never known anyone as wonderful as You are  
Over and over  
You fill my heart with wonder  
You take me by surprise  
I can't believe my eyes  
Wider and deeper  
Just when I think I've seen You  
Like a stone thrown into the ocean water  
I could search Your depths  
And never hit rock bottom  
Even though I'm plungin' in the depths of Your love  
I'm just scratchin' the surface of who You are  
All the seas in all the world cannot contain all  
that You are  
You captivate my heart  
Over and over  
You fill my heart with wonder  
You take me by surprise  
I can't believe my eyes  
Wider and deeper  
Just when I think I've seen You  
Like a stone thrown into the ocean water  
I could search Your depths  
And never hit rock bottom  
Over and over  
You fill my heart with wonder  
You take me by surprise  
I can't believe my eyes  
Wider and deeper  
Just when I think I've seen You  
Like a stone thrown into the ocean water  
I could search Your depths  
And never hit rock bottom
