

# Tell the World I Do

Jimmy Reed

C'mon baby, tell me what you puttin' down  
C'mon in this house woman, just tell me what you're puttin' down

Oh then now, I won't have to be run 'round here babe, a with my  
face all but a frown

Ya know I love you, an' honey, I'll tell the world I do  
You know I love ya baby, and girl I'll tell the world I do  
A well now the only thing is worryin' me baby, I want to know,  
do you love me?

One of these days, baby, you'll find out just how much I love you

One of these days, baby, you'll find out just how much Jimmy love you

A then you're gonna have to figure it out for yourself, baby and tell me what you want to do
