

I Want Her Love

Jimmy Ruffin

My heart beats like a thousand drums, mmm-hmm
When my eyes tell my heart that here she comes, oh yeah
Every time the little girl is near
All the words I wanna say just seem to disappear
Help is what I need from the One above
'Cause I'm sure He knows how bad I want her love
Yeah, I want her love

If I could make her mine
Life would be a sweet, sweet song, yes it would
I'd love that little girl my whole life long
If I could just get a start
In the direction to win her heart
I'd never stop giving thanks to the One above
'Cause I'm sure He knows how bad I want her love
Woo, I want her love

Mmm, if I could make her mine
Life would be a sweet, sweet song, yes it would
I'd love that little girl my whole life long
If I could just get a start
In the direction to win her heart
I'd never stop giving thanks to the One above
'Cause I'm sure He knows how bad I want her love
(I want her love)
I said I want her love (I said I want her love)
I said I need her love (I said I need her love)
I said I need her love (I said I need her love)
I said I want her love (I said I want her love)
I want, I need her love (I need her love)
