

Because Of Him

Jimmy Somerville

My heart is on fire and it's out of control
Like a blazing inferno, oh God I don't know
If I'm coming or going my mind's out to lunch
Lost all concentration

And it's all because of him
All because of him

With the wink of an eye and there's chaos in sight
He just has to smile and I'm melting
And there's no drug I've tried could give such a high
As the heights that I reach when he's near

My nails are a mess
And I couldn't care less
I'm calling it love
'Cause there's on other words

And it's all because of him
Yes, it's all because of him

Well, I'm neither here and I'm neither there
It's like I've exploded emotions out everywhere
Well, I'm neither here and I'm neither there
It's like I've exploded emotions out everywhere

And it's all because of him
Yes, it's all because of him
And it's all because of him
Yes, it's all because of him

Well, I'm neither here and I'm neither there
It's like I've exploded emotions out everywhere
