

Control

Jimmy Somerville

Feel your strength
Just let it flow,
The more you suppress
The weaker you grow,
Build yourself
A fortress of pride.

Take control of your life
Body and soul
Take control body and soul.

Don't be scared
To let yourself go
Blow your mind
Beyond all you know
Take a trip
Enjoy what you find.

Take control of your life
Body and soul
Take control body and soul.

Use your voice
To command some respect
Show them all
The power you possess
Your darkest thoughts
Just cast them aside.

Take control of your life
Body and soul
Take control body and soul.
