

# Lights Are Shining

Jimmy Somerville

Ohh ahh  
Lights are shining  
Lights are shining  
Shining for you  
Shining for you  
So long the darkest days  
Words I never found to say  
So high the places I could never satisfy  
Moments turned to years  
Tired of wasting with my tears  
Teach me here I am time to face my fears  
Teach me here I am time to understand  
Lights are shining  
Lights are shining  
Shining for you  
Shining for you  
Lights are shining  
Lights are shining  
Shining for you  
Shining for you  
So far nor not so good  
To change my story I surely would  
With care lay me bare faith will take a look  
Windows open wide  
Tell the ghost to come inside  
No where left to hide but everything to find  
No where left to run my eyes are open wide  
Lights are shining  
Lights are shining  
Shining for you  
Shining for you  
Lights are shining  
Lights are shining  
Shining for you  
Shining for you  
Shine for you  
The lights will shine for you, the lights will shine for you  
Shine for you, shine on you, shine for you, shine for you
