

# Lovething

Jimmy Somerville

I hold my heart on high for y'all to see  
He's the one who sets desire free  
Loving him comes on high  
On my ambitions  
Whatever road we take I got to do or die

We got this love thing, love thing  
We got this love thing, goin' on  
We got this love thing, love thing  
We got this love thing, goin' on  
We got this love, love, love

There came a time when my reality  
Hurt me day by day then deserted me  
Now I fight my way  
Through those inhibitions  
With the man who rescued me  
From the ghetto in my mind

We got this love thing, love thing  
We got this love thing, goin' on  
We got this love thing, love thing  
We got this love thing, goin' on

Such a feeling oooh such a feeling

We got this love thing, love thing  
We got this love thing, goin' on  
We got this love thing, love thing  
We got this love thing, goin' on
