

No Rollin' Blues

Jimmy Witherspoon

Well have you ever loved a woman? (Yeah!)
Caught her running around (Know what you mean daddy!)
Yes have you ever loved a woman?
Caught her running around
There's only one thing to do boy
Stop and put that woman down (Where's your smile [?])

Yes and when you come off of work in the evening (Get up in the morning)
Everything you do is wrong
Yes when you come off of work in the evening
Everything you do is wrong
Well you might as well pack up your clothes and leave
'Cause someone's carrying your rollin' home

Well when I went to see my baby (What happened?)
She pulled the shades and locked the door

She says goodbye with a spoon
I don't need your rollin' no more
Ain't that just like a woman?
Yes they'll leave you feeling awful bad
Yes and all the time they know
You're the best man they ever had

Well some people like to love out in the parlor (Uh huh, that's me!)
Some like to love in lover's lane (That's me)
But I like to love in the wee hours of the morning
When it's pouring down rain
Yes she's gone
Yes she's gone with the wind
Yes and if she ever do wrong once more
You'll know she'll never do right again
Amen!
Never do right again
