

When I Been Drinkin'

Jimmy Witherspoon

I'm looking for a woman who ain't never been kissed
Who digs ain't nobody's business
And I won't have to break my fist
When I've been drinking
Yes, when I've been drinking
Yes, and when I come home at night
Please let me lay down and rest

When I come home, baby, put me in an old rocking chair
Rock me in it please, mama, I don't care
When I've been drinking

Yes, when I've been drinking
When I come home at night
Please let me lay down and rest

I wanted to cook my breakfast and serve it in bed
Talk, baby, talk to me when you rub my head
When I've been drinking
Yes, when I've been drinking
And when I come home late at night
Please let me lay down and rest
