

# Comin' Up

Jin

I'd like to take this moment  
To tell y'all how I came up  
But first let me tell y'all  
Where I came from  
In North Miami Beach  
Born and raised  
On the grind is  
How I spent most of my days  
Chillin' out  
Maxin' relaxin' coolin'  
Kickin' freestyles  
Outside of my school and  
Before LL was in the house  
I picked up the mic  
Mama almost knocked me out  
Not a new jack  
You ain't get the memo wait  
98 I was on my third demotape  
No YouTube views  
No Instagram  
Had to hit that stage to  
Convince the fans  
Won't lie got booed  
Maybe once or twice  
Never again  
I must've been doin'  
Somethin' right  
Could it be my desire  
Hunger Games  
I'm a one of one  
You will find none the same  
With skills required like you have never seen  
I got that fire  
Katniss Everdeen  
To get signed  
Show up in headlines  
Labels slept for awhile  
Bedtime  
Til I hit 'em with that  
Wake up call  
911 emergency  
Wake up y'all  
Plan A don't stop tip they know my name  
Plan B was simple  
See Plan A  
Gotta stay focused  
To overcome what's tough  
That's just how it is when you're comin' up

I know you see me  
Comin' up  
I know you see me  
Comin' up  
That's what's up

I'm a father now  
I love story time

Ready for it?  
Here's a Toy Story line  
They say where you been Jin  
I been right here  
Just buildin' up my buzz for a light year  
Startin' from scratch  
Somethin' fresh indeed  
Cookin' up tracks  
Got a new recipe  
A little bit of this and a little of that  
Let it sit in the booth for 30 minutes  
And it's a wrap  
The delivery is flawless  
When I spit it that's a fact  
If it isn't permission granted feel free to send it back  
Shout out to Twista  
A vet fasho  
We did a song together and never met before  
Sometimes that's just  
How the game goes  
No pot of gold  
At the end of rainbows  
Pockets not quite  
At the proper calorie yet  
My biggest payout  
Cashing a reality check  
But the last thing I'm doin' though  
Is prayin' for wealth  
Cause I love the Lord way before anything else  
In the meantime yo  
I got business to do  
'bout to kill it  
All that's left is my finishin' move  
Stayin' composed  
While I'm still in control  
Tryin' to sellout these shows  
Without sellin' my soul  
I seen the highs and the lows  
Just to sum it up  
That's always how it is  
When you're comin' up

I know you see me  
Comin' up  
I know you see me  
Comin' up  
That's what's up

Ahh yeaah  
Here's the best part  
The come up  
Gotta enjoy it  
Check me out yo  
I'm comin' up  
Nah I ain't lookin' down  
I'm comin' up  
Nah I ain't lookin' down  
At this rate  
I won't even see the ground  
At this rate  
I won't even see the ground  
Change the game  
Thats what I came to do

Change the game  
That's what I came to do  
Change the game  
Don't let it change you  
Change the game  
Don't let it change  
Change, change  
You, you, you
