

## Hypocrite (Black Chapter)

Jin

Let me tell you how this all came to be  
I was sittin' diggin' in the word Matthew 23  
I'm thinking this is it, finally victory  
Then the Holy Spirit hit quick convicted me  
Could it be it's just all hypocrisy  
I'm a modern day pharisee quite possibly  
Tell me whats the use if I know the law  
But the true living God I never knew at all

I got to practice what I preach  
It don't matter what I'm saying on these beats  
In the church or when I'm on the streets  
Tell me whats the use if I don't practice what I preach

If thats the case I should expect the worst  
No surprise why the word would reject the church  
I mean why would you respect my turf  
If I don't comply myself and resect it first  
Brothers and sisters in Christ this is a wake up call  
To myself included I can relate to y'all  
Right now is the time I got to start living it  
The last thing I want to be is a hypocrite

Make no mistakes its a must that I be honest y'all  
Whats in the dark shall come to light thats a promise y'all  
I know what someone say it ain't no surprise to me  
"I ain't a Christian so none of this applies to me"  
Indeed, that's why off and from the start  
I sincerely pray THE LORD will soften up your heart  
Until then beware of any false prophets  
Vicious wolves disguised as sheep that look harmless  
Don't be fooled before you follow suit  
I mean really take a look and recognize them by their fruit  
The good news is even as I'm writing this  
I realize only faith brings forth righteousness  
Yet I can't neglect how I live and behave  
Cause faith without works will only end up in the grave  
Right nows the time we got to start living it  
The last the you want to be is a hypocrite

Come on put yours hands up if you got to stand  
This hypocrisy its got to stop its time to man up  
I said this hypocrisy its got to stop its time to its time to  
Come on put yours hands up if you got to stand up  
This hypocrisy its got to stop its time to man up  
I said this hypocrisy its got to stop its time to time to
