Be with you

Like a midsummer dream
Like the waves of the ocean
Like the starlight in my heart
You came to me
I love u (I'm a butterfly)
I need u (You're a flower)
I am you, you, you
You are me, me, me it's you

In front of the blue ocean is you I love u
Your hair flying in the wind
Your eyes looking at me, your lips
I keep looking and it drives me crazy

Into your eyes that are deeper than the ocean
I look then my heart races
My heart may seem alright
But it's like a sandcastle
That easily crumbles with the waves

When the sunsets on a hot summer day
Rather than a horror movie
I wanna watch a comedy or fantasy
Because you're pretty when you smile
I'm glad we're getting closer

Like a midsummer dream
Like the waves of the ocean
Like the starlight in my heart
You came to me
I love u (I'm a butterfly)
I need u (You're a flower)
I am you, you, you
You are me, me, me it's you

When I see you reflected by the moonlight (i love u)
You shine more than anything in the world
So I wanna confess my heart to you
I can't go on without you

Is it because of the weather these days?
I get angry and tired more easily
I lose more energy
I want to dive my heart into your ocean
And comfortably hold my breath

I'm gonna jump in the water
Even if I lose consciousness
It's alright because that'll be resting for me
Because like my dream, you'll embrace me completely

I wanted to tell you
It's only you for me

Like a midsummer dream
Like the waves of the ocean
Like the starlight in my heart
You came to me
I love u (I'm a butterfly)
I need u (You're a flower)
I am you, you, you
You are me, me, me it's you

Ohohoh love ohohoh love ohohoh
I miss you everyday oh everynight
I wanna love you
Be with you
