

## A Thing Going On

J.J. Cale

Look here we got a thing going on  
Never fear we got a thing going on  
Ain't nothing to it  
Got to get down and do it  
I tell you the truth  
Ain't jivin' you

Lord, Lord, we got a thing going on

Something in this place  
It's on every face  
It's catching fever  
You just can't leave her

Look here we got a thing going on  
Never fear we got a thing going on

What we gonna do  
We're gonna roll through  
Do it right, keep it light

Lord, Lord, we got a thing going on  
Look here we got a thing going on  
Never fear we got a thing going on
