

## Deeper Than Belief

JJ Grey & Mofro

In that lullaby  
Something moved me deeper  
Than any thought that I  
Could ever know  
But that's the story now  
Told myself a thousand times  
I'm hanging by, by a thread

But I believe it  
From the highest high and lowest low  
I'm holding on, deeper than belief  
And I see it  
Through all space and time and thought and mind  
I'm holding on, deeper than belief

Feel it spinning slow  
The face of all created made me feel so small  
But not alone  
The story is fading now  
Golden light, had the power to heal my heart

But I believe it  
From the highest high and lowest low  
I'm holding on, deeper than belief  
And I can see it  
Through all space and time and thought and mind  
I'm holding on, deeper than belief

But there's an easy way  
Chopping wood carrying water all day

But I believe it  
From the highest high and lowest low  
I'm holding on, deeper than belief  
And I can still see it  
Through all space and time and thought and mind  
I'm holding on, deeper than belief  
Through all space and time and thought and mind  
I'm holding on, deeper than belief
