

Miracle

JJ Heller

I've never seen a burning bush
I've never walked across a parted sea
I know that it can happen, but
I've never heard an angel speak to me

I'm not the kind of person who goes looking for a sign
But I swear the world got brighter
When you arrived

I see a miracle
Right in front of me
A brilliant shining light
Electricity
Unexplainable
But I do believe
You're a miracle
With a heartbeat

I heard of signs from long ago
Sometimes it's hard to trust that they are true
But I believe in miracles
I hold one in my arms when I hold you

A little piece of heaven
How is this reality?
Somehow you're even better
Than any dream

I see a miracle
Right in front of me
A brilliant shining light
Electricity
Unexplainable
But I do believe
You're a miracle
With a heartbeat

I see a miracle
Right in front of me
A brilliant shining light
Electricity
Unexplainable
But I do believe
You're a miracle
With a heartbeat

You're a miracle
With a heartbeat
