

Night Vision

JJ Heller

Be my light
Be my night vision
It's been so dark
Where I've been living
Don't let me fall apart

Be my eyes
Be my night vision
I see you
When all the signs are hidden
Let love eclipse my heart

The day is Yours
But the night is too
Oh creator of the darkness
The dark is light to You
The day is Yours
But the night is too
Oh creator of the darkness
The dark is light to You

Be my guide
Be my night vision
Lead me to the place of your provision
Away from every harm

Be my guard
Be my night vision
Let silence fall, keep watch
While I'm dreaming
Resting in your arms

The day is Yours
But the night is too
Oh creator of the darkness
The dark is light to You
The day is Yours
But the night is too
Oh creator of the darkness
The dark is light to You

You are not surprised
You are the keeper of the night
You will not grow tired
You are the everlasting light
You are not afraid
You are the fire burning bright
You are my night vision
You are my night vision
