

Speak My Name

JJ Heller

Speak my name
Call me daughter one more time
Speak my name
Do you hear me when I cry?

In the rain
Hold me up above the clouds
Clean the stain
That my spirit leaves behind

I want to hide in your shadow
I want to live like I am yours
Oh won't you please come quickly
Quiet the storm

Are you close
Could I touch you if I tried
Do you know
How I long to be near you
Safely asleep in your arms

Now that I'm here hold me until
All of my fears are washed away
