

# When I Care For You

JJ Heller

I thought you would steal my time  
You stole my heart instead  
You helped me find a joy inside  
I didn't know I had

And it feels like nothing else  
That I have ever felt  
And I feel more like myself  
When I care for you  
When I care for you  
When I care for you

The fairy tail we're living is my favorite one so far  
When you're with me  
I don't need to wish upon a star

And it feels like nothing else  
That I have ever felt  
And I feel more like myself  
When I care for you  
When I care for you  
When I care for you

I was afraid I would lose myself  
I'm not afraid anymore  
I'm not saying it's always easy  
But it's its own reward

When I care for you  
When I care for you  
When I care for you

When I care for you  
When I care for you  
When I care for you  
I feel more like myself
