Burn up everything in your heart  
Let it go let it go now let it go

I can't just let you go like this  
Now only the people who play well,  
gather here and follow me  
Let's go to that place where you can forget everything  
So that I can enter your heart  
Open it up to me,  
trust your all in me and look at me  
Today, you and I, we're just going to go like this
