I know this is stupid
I know, I know
But when people point fingers at me
I'm gonna become stronger

Without fail, I'm dreaming again today
As if I'm free like I'm flying in the sky
As if I can reach if I hold out my hand
I'll flap my wings harder, even if I'm scared

Never, I can't give up
I can't fall down
For my dreams, I'll only look at one place

I can't give up
I can't fall down
Even if my body breaks down

Every time I get scared
For the people who believe in me
I will prove it
Every time I wanna close my eyes
I'll picture me standing at the finish line

I'm not sure of this path
But I'll fly, I'll fly
I'll follow the light and draw countless pictures
Even if I feel the limit

Without fail, I'm dreaming again today
As if I'm free like I'm flying in the sky
As if I can reach if I hold out my hand
I'll flap my wings harder, even if I'm scared

Never, I can't give up
I can't fall down
For my dreams, I'll only look at one place

I can't give up
I can't fall down
Even if my body breaks down

I'll go up faster than anyone else
I'll hold out my hand, I hope you're with me
Flying higher in the blue sky
So you can feel it, so you can spread your wings

Never, I can't give up
I can't fall down
For my dreams, I'll only look at one place

I can't give up
I can't fall down
Even if my body breaks down

Every time I get scared
For the people who believe in me
I will prove it
Every time I wanna close my eyes
I'll picture me standing at the finish line
