

# Cold Shoulder

JJ Wilde

Lately I've been afraid of making mistakes I can't erase, oh, oh  
Getting a colder shoulder each time I come alive  
Don't feel right, right, right  
I come alive, I come alive

Wanna be reckless, wanna be ready  
I don't wanna make it out alive  
Wanna be forward, making me nervous  
Making me wanna build it up in time

What's the sense in making the most of staying the same?  
Nothing good will come without change  
I would bet in ten year's time  
They're still the same people chasing the night

Wanna be reckless, wanna be ready  
I don't wanna make it out alive  
Wanna be forward, making me nervous  
Making me wanna build it up in time, in time  
I don't wanna make it out alive, alive  
What's the use in staying the same?

Back lit up, turned cold blood  
I dig a, I dig a hole  
Messed up much  
Think I'm tough  
I dig a, I dig a hole  
Oh, oh-oh, oh

Wanna be reckless, wanna be ready  
I don't wanna make it out alive  
Wanna be forward, making me nervous  
Making me wanna build it up in time, in time  
I don't wanna make it out alive, alive  
What's the use in staying the same?
