

Colours

JJ Wilde

It's the smartest thing I ever did
Opening my heart to let you in
You taught me that despite the evidence
I'm still worth a damn, you'd still take the risk
Oh, stay with me, don't ever leave

Where I was broken you made a home in
Where I had nothing you gave it all
Where I was hardened you grew a garden
Your love it hollers down my halls
I've got your colours on my walls

I wish I would've met you long ago
You could've taught me what I didn't know
You collected every stone I've thrown
And you laid them down, you paved the road

Where I was broken you made a home in
Where I had nothing you gave it all
Where I was hardened you grew a garden
Your love it hollers down my halls
I've got your colours on my walls

Where I was broken you made a home in
Where I had nothing you gave it all
Where I was hardened you grew a garden
Your love it hollers down my halls
It's like the others weren't here at all
I've got your colours on my walls
