Didn't want your number
But your coming on strong in the back of the bar like your gonna
Take me under, ex lover, so upset cause I found myself another
And it's too light out for me to cry about
All the other girls that you want you should call her
Suns coming up going home I'm a goner

Options, yeah, I got
A lot of em
Not what I want
Leave the drama at home
I'm okay on my own
Better of even though
I got options they keep calling

Numbers on my phone I ain't saved blowing me up
Just another way I get by filling my cup
Don't hate me cause I keep em all hanging
Fishing in the see and I throw em right back in
Maybe
I throw em right back in

Options, yeah, I got
A lot of em
Not what I want
Leave the drama at home
I'm okay on my own
Better of even though
I got options they keep calling lately

I ain't complaining no I'm just saying
I got I got (I got I got)

Options, yeah, I got
A lot of em
Not what I want
Leave the drama at home
I'm okay on my own
Better of even though
I got options they keep calling lately
