

All White Everything

jj

Time to pray,
Time to say what's been on my mind
Let's find a way home
So I can mend my restless soul
Maybe I don't wanna know everything that you've been told
It's all greek to me
Maybe you should go
Maybe you should know
Yeah you should know
I've been up all winter for someone like you
And I know that you've been up all winter for someone like me
Don't want to leave
I need you to be here
Where you left me
If you don't, I'll leave you
You go do what you need
Don't stop 'till you bleed

All white everything from my face 'till my wedding
All white everything from my nose to my sense
All white everything from my face 'till my wedding
All white everything from my nose to my sense
All white everything from my face 'till my wedding
All white everything from my nose to my sense
All white everything
All white everything
All white everything

What you about that?
No you don't know a thing!
What you about that
No you don't know a thing
What you about that
No you don't know a thing
What you about that
No you don't know a thing
What you about that?
No you don't know a thing!
What you about that?
No you don't know a thing!
What you about that?
No you don't know a thing!

Pictures' getting trouble for asking too much
Have I said enough!
All white,
Have I said enough!
Have I said enough!
'Cause I'm talking too much
I'm starting to blush when I think about the thing we did
Oooh ooh
