

# Don't Talk About Love

JLS

When I dropped ya, at the airport  
Thought I was gonna be alright  
As I drove home from the airport  
Said I gotta get on with my life  
So I let go, there you go girl  
Do your thing so I can do mine  
See I thump my chest nothing beating in here  
Stop the plane cause my heart is up there

I, I got my chance to survive  
As long as everyone is keeping their love alive  
And I, all I wanna do is hide with my hands over my ears I close my eyes

The more you talk about love  
Is the more I think about her  
She took a break, went away  
I wanna go back to the way things were  
Said the more I think about love  
So please stop holding hands  
All I'm holding is a picture of us  
And a picture of what could have been

Love, Love, Love  
Don't wanna think about  
Love, Love, Love  
Cause when I think about  
Love, Love, Love  
You're all I'm thinking  
Of, Of, Of

I said on twitter, I'm never better  
But don't tell me about your new love  
You see this love thing, can be a killer  
Is that all you people think of  
Now guess what day is tomorrow  
Hooray it's Valentine's Day  
Wanna jump from the 13th to the 15th  
Ripping up the calendar don't remind me

I, I got my chance to survive  
As long as everyone is keeping their love alive  
And I, all I wanna do is hide with my hands over my ears I close my eyes

The more you talk about love  
Is the more I think about her  
She took a break, went away  
I wanna go back to the way things were  
Said the more I think about love  
So please stop holding hands  
All I'm holding is a picture of us  
And a picture of what could have been

Stop calling me, stop calling me up  
It doesn't make a difference  
You're overseas, so I'm giving you up  
Girl don't it make sense  
Stop calling me, stop calling me up, ooh yeah

I don't wanna walk around thinking 'bout what you do  
Each and every day when you can't be here with me
