

# One Call Away

JLS

Im only one call away from you  
Im only one call away from you  
And when you dont know what to do  
Just pick up the phone  
You know

This isnt good bye, not even a break  
I know its not one that we wanted to take  
But ill be home, soon  
I hope youll wait for me  
Like I wait for you, ooo

Its only gunna be a while, a while  
Cant be away from your smile long  
No matter where I go  
I wont let us go  
Im already missing my best friend

Im only one call away from you  
Im only one call away from you  
And when you dont know what to do  
Just pick up the phone  
You know  
Im never too far  
Im never too far  
Im never too far, from you  
Im never too far  
Im never too far  
Im never too far, from you

This isnt goodbye but your crying  
Wanna wipe the tears from your eyes  
Girl Im trying  
To hold you down down down  
But its hard, its so hard.

Its only gunna be a while, a while  
Cant be away from your smile long  
No matter where I go  
I wont let us go  
Im already missing my best friend

Im only one call away from you  
Im only one call away from you  
And when you dont know what to do  
Just pick up the phone  
You know  
Im never too far  
Im never too far  
Im never too far, from you  
Im never too far  
Im never too far  
Im never too far, from you

No one said that this would be easy  
Im missing you so much, girl believe me  
No one said that this would be easy

Im missing my best friend
