

# The Club Is Alive

JLS

The club is alive with the sound of music  
Who's that girl in the spotlight oo coz she turns me on  
Bring it back back baby baby like that

Came to the club not lookin' for love  
Out with my boys just havin' some fun  
Baby then I saw you  
All of that disappeared

Standing by the bar just enjoying the view  
Shorties all around but I'm focused on you  
Bodies in the way but  
I just wanna make it clear

You could be the DJ  
I could be the dance floor  
You could get up on me  
(On me, On me)  
You could be the DJ  
I could be the dance floor  
You could get up on me  
(On me, On me)

The club is alive with the sound of music  
Who's that girl in the spotlight oo coz she turns me on  
1234  
The club is alive with the sound of music  
If it's you in the spotlight oo girl you turn me on

Bring it back back baby baby like that  
Bring it back back baby baby like that

Girl when you move it's a private show  
Got me wondering how low you can go  
Girl you the fire come and put that heat on me

Don't tell your friends that you're leaving now  
Just push your way out through the crowd  
Meet me in the corner where nobody else can see

You could be the DJ  
I could be the dancefloor  
You could get up on me  
(On me, On me)  
You could be the DJ  
I could be the dancefloor  
You could get up on me  
(On me, On me)
