JME

I don't know where you think you're going  
With them two litter bars  
Deadout, clash me you'll get en par  
You know my face, Jamie Adenuga  
I don't care what maddaman thinks  
I heard your mixtape, blud it stinks  
How you perform when you're on stage  
Smells exactly like your mixtape  
When I spray, everybody get haps  
Jumping about, shouting rah, rah.  
Doing bare things with their hands  
Just how do you know man got bare fangs?  
You ain't got no one but cats  
About you got brethrins and that  
Don't try a thing, man ain't a ediah  
Tell you to shh hut yuh muh, deerkhead

Yo

There'll never gonna be a day when Jamie's quitted  
More like he see me in a fitted  
And a fresh trim, and a pullover knitted [? ]  
Failed in an example, I'll reset it  
Never be a day when Jamie's quitted  
More like he see me in a kitted  
Bust in metro, fully legited  
Smoking inside the whip permitted  
Never be a day when Jamie's quitted  
More like he see me admit it  
To mental home, with my legs splitted  
Doing bare things with both for slit it [? ]  
Never be a day when Jamie's quitted  
More likely see me outwith it  
In a two year relationship committed  
To one of these dumb dumb female shitheads
