JME

S'appenin bruv,
S'poppin, yeah's big still...

Lemme get my phone one sec, I wanna show everybody one text,
This girl, she's on some next ting, she's on some dumb flex,
Wait, there it is, read that, now tell me she ain't a cat,
Stupid headers, type the whole text in capital letters,
She goes "JME, I know your not one of them bredda's,
But your blankin' my calls, that's not wise, I know guys that h
ate you",
SO? Probably the same guys that I hate too,
She wants me to think, that I'm her one and only link,
Like, the only person she's seeing,
Cummon, were all human beings,
I've known her for about 2 years, or 3? For time,
And she still calls me JME,

They wanna know me cause I'm famous,
They only like me cause I'm famous,
The truth is I'm not even famous,
These girls must be brainless,

Do you know what's funnny?
It's not even the money,
They think I think I'm a celebrity,
Cause I got video's on tv,
How many girls have said this to me,
"just because your JME, don't think that you can rer-ter-ter",
I give them pure air,
No hype, their angry cause their not my type,
White girls say I only like black girls, black girls say I only
like white,
I've had one girlfriend in my life, she taught me that their al
l the same,
Tell any girl that, and you'll get the same answer which proves
what I'm saying,
I dunno, one day I might find a girl, but I ain't lookin',
I'm cool right now, I can do my own washin', do my own cookin',
I ain't gonna lie, sometimes you need a girl at night,
To cuddle up to, so mabye I'll find one that's right...

They wanna know me cause I'm famous,
They only like me cause I'm famous,
The truth is I'm not even famous,
These girls must be brainless,
