Man's just here innit Turn it up if man's just hearing it How many times you gonna ask What's under the durag? Just hair, innit And that's all I need Badboy creps, shorts to the tee Unfortunately I weren't like this before but now I see That everything else in my life is a bonus Meat-free and thrive, that's a bonus Home studio, vibe, that's a bonus I've got a beautiful wife, that's a bonus Fast car on my drive, that's a bonus Friends that care 'bout my life, that's a bonus If I never had none of them I would be at zero But I still have air to breathe Food to eat, a bed to lay my head I'm free of disease Clean water to drink and wash, I said I got air to breathe Food to eat, a bed to lay my head Look around I see so much greed Sometimes I ask myself How much do you want? (How much do you want?) How much do you want? (How much do you want?) How much do you want? (How much do you want?) How much do you want? (How much do you want?) How much do you want? (How much do you want?) How much do you want? (How much do you want?) How much do you want? (How much do you want?) How much do you want? (How much do you want?) Fam, I fell victim to this mindset Came across nice to the people I met But how can a man have so much in life And still not be satisfied yet? Oh please Them upper-class man on your screen Open up their minds, you'll see Nuttin' but a bottomless pit of greed How comes a random yute From the ends like me has clocked that? When I pass, I'm leaving a lot Even my own skin has to stay and rot All this chasing's gotta stop Fam, look around, realise What's worth your energy, please, and what's not Give thanks Sit back and ask yourself How much do you want? (How much do you want?) How much do you want? (How much do you want?) How much do you want? (How much do you want?) How much do you want? (How much do you want?) How much do you want? (How much do you want?) How much do you want? (How much do you want?)

```
How much do you want? (How much do you want?)
How much do you want? (How much do you want?)
How much do you want? (How much do you want?)
How much do you want? (How much do you want?)
How much do you want? (How much do you want?)
How much do you want? (How much do you want?)
How much do you want? (How much do you want?)
How much do you want? (How much do you want?)
How much do you want? (How much do you want?)
How much do you want? (How much do you want?)
```
