JMIN

I know, tell lil shorty I know  
Always on the road  
Pour the lean, I'm moving slow  
I know, tell lil shorty I know  
This my year, I need ten racks for a show

Last year I was broke as fuck, I had to run it up  
Next year you gonna see me in a brand new Bentley truck  
All my brothers really stars, they are gonna light it up  
I keep proving people wrong and I can't get enough  
When I wake up, tell your bitch and skirt off in an Audi  
When I pull up, ten bad bitches waiting in the lobby  
You can't ride the wave, diamonds will make you drown like a tsunami  
I don't feel the hate, I know my time is coming and we are gonna elevate

I said finally we done came up  
Die for my family, I never switch up  
I'm gonna get paid up, I'm on my way up  
Now all these bitches they be showing so much fake love  
And all who used to hate now they fucking with me  
Only fuck with the real that be hundred with me  
Yeah, ay, I'm moving on a bigger things, forty it came with a beam  
Bad lil bitch wanna suck on me  
Kicking shit like I'm Bruce Lee  
Double Gs holding on my jeans  
Face is what I said, fuck the beans  
You can't ride with me if you ain't gonna blast that  
Riding through my city, I just drop the top back  
It's my time to shine, I deliver her in the past  
I know she want me back

I know, tell lil shorty I know  
Always on the road  
Pour the lean, I'm moving slow  
I know, tell lil shorty I know  
This my year, I need ten racks for a show
