

Christmas Time Is Here

JMSN

The new year's approaching
Filled with emotion
I watched as the days just passed
How'd they fly by so fast?
In just a moment
It's already snowing
Just like an hourglass
Enjoy it while it lasts

Because this could be the very last time
That we're all together
But we'll always remember

The angels will sing
The sleigh bells will ring
Reminding us all that we've forgotten what it means
Red, Brown, Yellow, Black and White
We all will celebrate this life
We made it one more year
Christmas time is here

With everything frozen
The stores get to closing
All of the streets are clear
There's love in the atmosphere
The fire keeps roasting
Drinks overflowing
It helps to release our fears
Our worries just disappear

Because this could be the very last time that we're all together
But we'll always remember

The angels will sing
The Sleigh bells will ring
Reminding us all that we've forgotten everything
Red, Brown, Yellow, Black and White
We all will celebrate tonight
We made it one more year
Christmas time is here

Red, Brown, Yellow, Black and White
We all will celebrate tonight
We made it one more year
Thank God I spent Christmas time right here
