

## Do U Remember The Time

JMSN

Tell me what would you do  
If things had got so complicated  
That the lies become true  
And the things that made us, now just tear us apart  
The feeling you once loved, now rips out your heart  
Can we back it up

Back to when we were alive, no worries  
We could take our time, no hurry  
Things were looking right, not blurry  
The future seemed to shine, not dirty

Do you remember the time  
When it used to be so easy  
Do you remember the time  
You said you'd never leave me  
Why'd you go

It's all recorded  
Our fate is predetermined  
There's no orchestra  
The world keeps turning  
Every day I'm learning that my life  
Is a memory of a time when things were right  
Can we back it up

Back to when we were alive, no worries  
We could take our time, no hurry  
Things were looking right, not blurry  
The future seemed to shine

Do you remember the time  
When it used to be so easy  
Do you remember the time  
You said you'd never leave me  
Why'd you go

When I think about what you tried to tell me  
How it's all my fault, I thought about how maybe  
It wasn't me that changed, you just stayed the same  
I'm tired of playing games, all the pride and shame

Do you remember the time  
When it used to be so easy  
Do you remember the time  
You said you'd never leave me  
Why'd you go
