Everyone is over done and dead asleep
Dead asleep
Always one to fight and disagree
Disagree

There's nothin' worth savin'
When everything's changin'
Is anything sacred
When I'm always racin' around?

I'll never ever feel the same for you
You'll never understand the way I do

I lie awake
My mistakes they eat at me
Unevenly
Lost my faith
I'm way too fake
To even be anything but restless

You'll never ever find a good excuse
And I'll never ever feel the same for you, I lie awake
My mistakes they eat at me
Unevenly
Lost my faith
I'm way too fake
To even be anything but restless everyone
