

Guilty Conscience

JMSN

What you out here breakin' my back for?
Would you lighten up just a little bit?
You ain't even got all the info
Back up off me just for a minute

Don't you waste my time
Give me a little bit of sugar & spice
It's hard to taste the salt when it's fine
It's comin' on it's comin' on once again

I think you got a guilty guilty conscience yea
It's just a lot of non-sense
You gotta guilty guilty conscience yea
Its comin on comin on once again

I should stick to readin' my bible
Little vodka, little whiskey, little gin
I just want a buzz what do I know?
Back up off me just for a minute

Don't you waste my time
Give me a little bit of sugar & spice
It's hard to taste the salt when it's fine
It's comin' on it's comin' on once again

You got a guilty guilty conscience yea
It's just a lot of non-sense
You gotta guilty guilty conscience yea
Its comin on comin on once again

Sugar
Sugar honey pie
Its comin on comin once again

A guilty guilty conscience yea
It's just a lot of non-sense
You gotta guilty guilty conscience yea
Its comin on comin on once again
