

# Pose

JMSN

Hahahahahaha

Got that tunnel vision I keep rolling like a stone I can't stop (can't stop,  
can't stop, I can't stop)

Ain't no time for stalling 'cause something keeps on calling me out (keeps c  
alling me, keeps calling me, keeps calling me out)

I don't know what you think that this is, but this is not, no party  
All the things that you want to exist does not and I'm not sorry (come on do  
it again)

I don't know what you think that this is, don't this is, I don't party  
All the things that you want to exist does not and I'm not sorry

Why don't you pose for me

So why don't you pose for me, slow it down, down

So why don't you pose for me, yeah (come on, just pose)

'Cause all I wanna do is turn you out, yeah (turn you out, come on)

Pose

You, you got to pose for me

You got to pose for me

Just slow it down

Pose

You, you got to pose for me (yeah)

You got to pose for me

Just slow it down

The cops just passed me turned around and they flashed

So I'm flipping a right

It's all moving so fast

Got my foot on the gas

Running through every light

Stereo on blast

See me speeding past

Call it youngins delight (delight, delight)

Forget the riff-raff

Ditch the ride and I cab it and continue my night (continue my night)

I don't know what you think that this is, but this is not, no party (yeah ye  
ah, not no party)

All the things that you want to exist does not and I'm not sorry (yeah, see  
you again)

I don't know what you think that this is, don't this is, I don't party

All the things that you want to exist does not and I'm not sorry

Why don't you pose for me (strike a pose)

So why don't you pose for me, slow it down, down

So why don't you pose for me, yeah (just pose)

(Want you pose for me)

'Cause all I wanna do is turn you out, yeah (turn you out, turn you out, com  
e on)

Pose

You, you got to pose for me (yeah)

You got to pose for me

Just slow it down

Just pose

You, you got to pose for me  
You got to pose for me  
Just slow it down
