

Look at my life  
The flashing lights, yeah yeah  
So many things I wanna do  
But no one told me the price was you  
(That's the price of love)  
Oh what a night  
(But it's bittersweet)  
I'm feelin' right  
(Like a symphony)  
So many things I wanna do  
But no one told me that the price would be you  
  
(That's the price of love)  
I realize that there's one simple kind of truth  
(That's the price of love)  
And there where it lies is the same place that I found you  
Somehow I found you and there's nothing I can do  
(That's the price of love)  
(That's the price of love)  
The price of love  
(That's the price of love)  
(That's the price of love)  
Just seems too much  
  
What's wrong or right?  
I can't decide, no no  
So many things I wanna do  
But no one ever told me that the price would be you  
See there's a light  
(But it's bittersweet)  
And it's got some fight  
(Like a symphony)  
Again my night approaches to  
And I just wanna sleep with you  
But then again that's the price of love  
  
(That's the price of love)  
I realize that there's one simple kind of truth  
(That's the price of love)  
And there where it lies is the same place that I found you  
Somehow I found you and there's nothing I can do  
(That's the price of love)  
(That's the price of love)  
The price of love  
(That's the price of love)  
(That's the price of love)  
Just seems too much  
  
And Lord knows I can't say  
I don't think about you every day  
That's the price of love  
(That's the price of love)  
(That's the price of love)
