

# So Badly

JMSN

You know I love u so madly  
And I want it so badly everyday  
You know I love u so madly  
You know I just can't live this way  
You know I love u so madly  
And I want it so badly everyday  
You know I love u so madly  
I just can't wait another day

See the night is young and I'm overcome with these feelings  
As I lay in the bed and watch you get dressed  
With my hands behind my head I start to wonder  
Do I really have what it takes to get you off?  
'Cause you got some real sex appeal and I'm not a man of steel  
And the way you put on that suede pussycat  
Makes me think you know exactly how I feel  
So what's the deal?  
Am I not what you want?  
Did my past take all the confidence I once had?  
'Cause you keep saying it's you and you got a lot on your mind  
But that don't help  
I still blame myself

Now listen

Days, days they seem so long  
Livin' without you  
Everything's so blue  
Without love  
I'm just draggin' on  
So tell me where I went wrong  
'Cause I just can't go on

You know I love u so madly  
And I want it so badly everyday  
You know I love u so madly  
You know I just can't live this way  
You know I love u so madly  
And I want it so badly everyday  
You know I love u so madly  
I just can't wait another day

Waves, waves they come and go  
Everybody knows  
Where the river flows  
(And when we die we all turn into stars)  
And we'll glow just like the sun  
We all come undone  
And 2 becomes 1  
'Cause our new lives have just begun

You know I love u so madly  
And I want it so badly everyday  
You know I love u so madly  
You know I just can't live this way  
You know I love u so madly  
And I want it so badly everyday

You know I love u so madly  
I just can't wait another day
