

# Sunshine

JMSN

Trust me you're all I ever wanted  
And if you love me I'll never be dishonest

Break up all of the things I've forgotten  
And pick up all of the pieces that have fallin

Baby you're the reason why  
I take it all in stride  
And I've never felt so alive  
You know that nothin compares 2 u

There's nothin that I won't do  
Said I just wanna be with u  
Girl you make the skies blue  
Said you're the sunshine of my life

When I'm witcho I can't lose  
Everyday I just cruise  
You got me feelin brand new  
Said you're the sunshine of my life

Before you I never knew what love was  
See I just rolled on through  
While everybody just bit the dust

Even as day turns into night  
And stars lose all their light  
Its always worth the fight  
Tell me how can I lose

When there's nothin that I won't do  
Said I just wanna be with u  
Girl you make the skies blue  
Said you're the sunshine of my life

When I'm witcho I can't lose  
Everyday I just cruise  
You got me feelin brand new  
Said you're the sunshine of my life
