

## Wet

JMSN

Swimmin' in obsession  
Need to catch my breath  
Lovers indiscretion  
Spun up in a spiders web

Drowning me in your deep blue sea  
Ooh I'm wet

Really show me what its all about  
You take me upside down yea you turn me out  
Love is fallin down from the highest cloud  
I'm wet

Needed resurrection  
A blessing in disguise  
Dove into expression  
And I never felt more alive

Drowning me in your deep blue sea  
Ooh I'm wet

Really show me what its all about  
You take me upside down yea you turn me out  
Love is fallin down from the highest cloud  
I'm wet

Little by little  
I just drift into the middle  
And drop like a waterfall  
And leave the world behind  
Crash the waves like a cymbal  
Its so plain and simple I'm wet

Ooh I'm wet

Really show me what its all about  
You take me upside down yea you turn me out  
Love is fallin down from the highest cloud  
I'm wet

Ooh I'm wet
