If we try, try, try  
Only you can make it better, baby  
You can make it better, baby (Uh-huh)  
You can make it better, baby  
When I need love at night  
Only you can make it better, baby (Uh-huh)  
You can make it better, baby (Yeah)  
You can make it better  
Yelling your name at night  
Only you can make it better, baby  
You can make it better  
Only you can make it wetter  
Coming all inside  
Oh, you can make it wetter (All inside)  
Only you can make it better (All inside)  
Only you can make it (All inside)

I told that bitch I need her (Uh)  
I told that bitch I need her (Uh)  
I told that bitch I need her (Uh)  
Pull up with the SRT, with the nina  
I told that bitch I need her (Uh)  
I told that bitch I need her (Uh)  
I told that bitch I need her (Uh)  
Pull up with the SRT, with the nina  
Don't nobody gotta know (Don't nobody)  
Our dirty little secret (Don't let 'em know)  
Our dirty little secret (Don't let 'em know)  
Our dirty little secret (Don't let 'em know)  
Don't nobody gotta know (Don't nobody)  
Our dirty little secret (Don't let 'em know)  
Our dirty little secret (Don't let 'em know)  
Our dirty little secret (Don't let 'em know)

Is it something you need to tell me?  
You owe me something  
Legs to the ceiling (Uh-huh)  
Just you and me chilling  
Either way, baby  
This how you got me feeling  
Move your hips all in it, baby (Uh-huh)  
I know the strokes drive you crazy  
You know the strokes drive me crazy  
You running up through my head like

If we try, try, try  
Only you can make it better, baby  
You can make it better, baby (Uh-huh)  
You can make it better, baby  
When I need love at night  
Only you can make it better, baby (Uh-huh)  
You can make it better, baby (Yeah)  
You can make it better  
Yelling your name at night (Bye-bye!)  
Only you can make it better, baby  
You can make it better  
Only you can make it wetter

Coming all inside  
Oh, you can make it wetter (All inside)  
Only you can make it better (All inside)
