

I'm a demon in the night  
Supermodel she a spice  
Fuck around I might just steal your wife  
Pussy makes me feel alive  
Rich as shit you know the vibes  
Champagne bottles with the lights  
6 seater Vito with the slides  
Only chauffeur driven rides

If you look at my life you'll know that I asked for this  
If you look at my ice you'll think that I hurt my wrist  
Come far from the trauma I was a lonely kid  
Shoutout to mumzie you know that we worked for this

Look at my life you'll know that I asked for this  
Look at my ice you'll think that I hurt my wrist  
Now look at me dripping with my myaka drip  
Diamonds keep dancing it's freezing like ice is brr

I'm writing this story from living the moment I'm in a new chapter  
The slide just keeps rolling and rolling and rolling I feel like an actor  
My life ain't that normal no more no no baby come sleep where the racks are  
And I ain't a smoker but if you want smoke you know where the packs are  
I'm running this CEO shit yeahhh  
Calling the shots yeah  
If niggas are working for me  
You know that I'm paying them properly  
Caught a whiff of the game so it's straight to the top and no looking back there

I'm a demon in the night  
Supermodel she a spice  
Fuck around I might just steal your wife  
Pussy makes me feel alive  
Rich as shit you know the vibes  
Champagne bottles with the lights  
6 seater Vito with the slides  
Only chauffeur driven rides
