I will always ride, ride for you So tell me would you die, die for I will never lie, lie for you So tell me if you're right, right for me

Look at the time it's quarter to two
Let's go out to lunch and catch a quick vibe or dinner for two
I promise you more if you hold it down I'll fuck with you boo
In love with the money there's never a time our pockets ain't full

Never a time our pockets ain't full
I love when you're round I fuck with you boo
I knew when I cuffed you there wasn't no time to act like a foo
1

I read that the key to the mans success is something like you And I ain't gone stop till I look outside and I see a view I'll meet you outside go jump in the pool

Oo c'est la vie
Been grinding all summer know me
Never gone run into me
Own all my masters I'll always be free
Grind for my brother so he take the lead
If you at my table you know you gon eat
Pull up your chair and come plot with the team

I will always ride, ride for you So tell me would you die, die for I will never lie, lie for you So tell me if you're right, right for me
