

Eating The Bear

Joan Armatrading

He had me down but I put up a fight
I saw those teeth and I groped for my knife
Big brown bear with the juice from his mouth
He tastes my leg and he thought he'd got me

But I am eating the bear

He lurked around 'cause he knew where I lived
I'm in the jungle and he means to eat me
He means to eat me, he's a hungry bear
He touched my arm and he thought he'd got me

But I, I am eating the bear
I am eating the bear
I am eating the bear
I am eating the bear

Some days the bear will eat you
Some days you'll eat the bear
Some days the bear will eat you
Some days you'll eat the bear

Some days the bear will eat you
Some days you'll eat the bear
Some days the bear will eat you
Some days you'll eat the bear

And I, I am eating the bear
I am eating the bear
I am eating the bear

It's not just girls, he eats who he wants
He's big and strong, fights dirty and mean
If you spill some blood, he'll smell you for miles
You better watch out 'cause he's right behind you

And I, I am eating the bear
I am eating the bear
I am eating the bear
I am eating the bear

Some days the bear will eat you
Some days you'll eat the bear
Some days the bear will eat you
Some days you'll eat the bear

Some days the bear will eat you
Some days you'll eat the bear
Some days the bear will eat you
Some days you'll eat the bear

And I, I am eating the bear
I am eating the bear
I am eating the bear
I am eating the bear
I am eating the bear
I am eating the bear
