I never wanted anybody else to like  
To like to like like you  
Well, I never wanted anybody else for love  
The way that I love you

I never wanted anybody else to like  
To like to like like you  
Well, I never wanted anybody else for love  
The way that I love you

People falling in love all the time  
So why should this be such a big surprise  
This happens everyday of our lives  
I knew my time would come around

I never wanted anybody else to like  
To like to like like you  
Well, I never wanted anybody else for love  
The way that I love you

Keep it secret for as long as we can  
Don't boast about our love for a while  
Camouflage our feelings with a smile  
In our hearts we are strong

I never wanted anybody else to like  
To like to like like you  
Well, I never wanted anybody else for love  
The way that I love you

I never wanted anybody else to like  
To like to like like you  
Well, I never wanted anybody else for love  
The way that I love you

I'm choosing to be happy  
I'm living like I love it  
I want to be with you  
Want to be with me  
I've learnt the skill of commitment  
I stayed in after school  
Fell in love  
Fell in love with the teacher  
Other people get to be happy  
I can't believe  
The language of love is speaking to me

I never wanted anybody else to like  
To like to like like you  
Well, I never wanted anybody else for love  
The way that I love you
