

Love Bug

Joan Armatrading

It may rain tomorrow
But tonight is all that's on my mind
My baby's here
In my arms
You know we've got it bad
Cos tonight we've got the love virus

We've both come down with the love bug
And it means we've got to stay in bed
I hope yous guys don't catch this
Cos it knocks you right off a your legs

Love bug
Talking bout love bug
I said love bug
You know I mean love bug

Let me explain the symptoms
First of all there's hardly any pain
With the love bug
You kind of lose you memory
You see
Hear
Think
Talk
Dream
Care
Just for one person
Only

Don't come down with the love bug
Cos it drives the sense
Right out of your head

This thing strikes in a curious way
It only hits when you're not looking

Don't stand close to anybody
Who'll contaminate you
If you come down with the virus
Well you'll never be alone again

We've both come down with the love bug
And it means we've got to stay in bed
I hope yous guys don't catch this
Cos it knocks you right off a your legs

Love bug
Talking bout love bug
I said love bug
You know I mean love bug
I said love bug

Talking bout love bug
Yeah love bug
You know I mean love bug
Yeah love bug

Talking bout love bug
Yeah love bug
