## **No Love For Free**

## Joan Armatrading

You come to me trembling trembling
Shaking at the knees
You say you love me better than
Anyone else can
My head is spinning
I'm flattered
But I don't understand

Every passing hello
How are you
You wanna know his name
Just because I was there
When you needed a shoulder
You think I'll take your name
I love for money
I'm flattered
But I can't leave my trade

You will see me holding up Some corner store In my twenties print And my thumb's turned up Yes I'm looking for a ride Jesus woke me up In some stranger's bed There are a lot like you They want to save my soul

Let me tell you This lady loves And she goes where she pleases No love for free

You come to me trembling trembling
Shaking at the knees
You say you love me better than
Anyone else can
My head is spinning
I'm flattered
But I don't understand

Every passing hello
How are you
You wanna know his name
Just because I was there
When you needed a shoulder
You think I'll take your name
