

Forever and a Year

Joan as Police Woman

I found my dream tonight
But it's not you
You're my fantasy
I've always known
I would die alone
So here I go
I like to stay right here
Forever and a year

Don't you be scared
'Cause I'm in it, I mean it, admit it
I'm into love

I've never dreamed a dream
That feels like you, romancing me
I long to hear you whisper in my ear
Come on let's go
Give in to the night
The legs of afterglow
The last leap open
I'll breathe your atmosphere
Forever and a year

Don't you be scared
'Cause I'm in it, I mean it, admit it
I'm into love

I've been in love before
And it's been true
Both the love and me
And memory sends
Forward history
That I could go
As soon as now
So I am telling you
I love you forever
And this is always sealed
Within the deep, deep field
I like to stay right here
Forever and a year
