

## Get Direct

Joan as Police Woman

If you would be mine  
we could be happy  
If you wouldn't mind  
we could be happy  
So how about it?  
It'd be so easy to do  
Start with you and I just feeling out  
the love we have for living  
throwing out the old bath water

It's elementary  
The corner of my eye  
Well it's got some business with you

I'd like to spread your fingers wider  
quit the lights and take you higher  
find the place that we've forgotten

It's elementary  
Don't take the tangle for my past  
I left that ruin long ago  
and I moved out to deep end  
braced myself in case a piece like you  
would walk on, walk on by

Oh baby please  
Now I know nobody owns nobody  
What I'm trying to say  
I wanna get spitting distance to you  
up close and personal

Let's get personal  
Let's get direct  
Let's get direct  
Let's get experimental

You and me  
imagine us happy  
Yes happy
